

# 2025-2028 STRATEGIC PLAN

The Alberta Construction Association (ACA) is a not-for-profit organisation established in 1959, representing over 3,000 companies in Alberta's institutional, commercial, and industrial sectors.

ACA serves as a direct conduit between government and local construction associations, ensuring industry concerns are addressed.

## OUR VISION

To be the leading and trusted provincial voice of Alberta's construction industry

## OUR MISSION

To unify Alberta's construction industry, foster collaboration, support LCAs, and advocate for sustainable growth

### ADVOCACY

ACA advances Alberta's construction industry by supporting local construction associations and influencing policies for the benefit of members.

### SERVING MEMBERS

ACA is dedicated to enhancing membership value through LCAs by understanding industry challenges and delivering key services and initiatives that benefit the sector.

### INDUSTRY EXCELLENCE

ACA supports the industry's long-term excellence by advocating for best practices around productivity, safety and sustainability ensuring that its members have access to a skilled labour force, professional development, and training opportunities.

## OUR PARTNERS

- **Local Construction Associations (LCAs)** – Represent regional members, provide networking, advocacy, and education, and serve as a link between local and provincial/national bodies.
- **Canadian Construction Association (CCA)** – The national voice supporting public policy, legal, and industry standards for Canada's construction industry.
